Work Experience

Software Engineering Intern

Apple Inc.

Cupertino, CA

Dec 2016 - August 2017

Worked on the Computer Vision and Machine Learning team.

Lab Assistant

UC Berkeley

Berkeley, CA

Fall 2016

Lab assistant for CS61A: The Structure and Interpretation of Computer Programs.

Engineering Intern

Boeing Defense, Space & Security

El Segundo, CA & Huntington Beach, CA

Summer 2015

Wrote a Matlab program to optimize satellite wiring. Created and presented PowerPoint presentations on satellite design. Developed flight paths using Spirent SimGEN to test GPS hardware.

Education

UC Berkeley

B.S. Electrical Engineering and Computer Science (expected 2020)

Berkeley, CA

2016-

Windward School

Diploma, June 2016

Los Angeles, CA

2012-2016

Concentration in math and science. Lead programmer for FRC robotics team, designed CAD of robot. Dean's list, 2012-2016.

Johns Hopkins CTY

Los Angeles, CA

2013, 2014

Completed intensive courses in cryptology (2013) and electrical engineering (2014).

Computer Skills

Software: Xcode, Git, Microsoft Office, G Suite, Adobe Suite, Eclipse, Autodesk Inventor, Onshape

Languages: C++, Java, Python, Matlab, Swift, Labview, CUDA/SASS
